5. It was agreed that matters regarding the negotiation of R&D contracts would be a matter of individual concern between separate Agency R&D components and the Office of Logistics, and would not involve the RDRB.

6. Presentation by Colonel Giller and [redacted] (A copy of the briefing notes is attached to these minutes.) The purpose of this exercise was to present to the Board an inventory of R&D contractual efforts within the Agency. The Board agreed that there was a necessity for an additional survey to provide data from which a more complete and meaningful summary could be compiled. It was further agreed that an effort should be made to categorize the R&D effort under headings denoting end objectives of the research. 25X1

ACTION: Reports of this additional work will be presented by Colonel Giller and [redacted] at the next Board meeting. 25X1

7. Discussions of community-wide efforts and plans for R&D [redacted] 25X1

25X1  
8. Brief presentation by Mr. Miller indicating the forthcoming structural change in OEL. [redacted] and several other men from OSA, will comprise the nucleus of a new "Airborne Systems" Division which will come under the control of a new DAD/OEL for development matters.

9. Agenda items for the next RDRB meeting:

- a. Approval of the minutes.
- b. Discussions of proposed amendments to the original charter.
- c. Continuation of presentation by Colonel Giller and [redacted] dealing with the surveying of all Agency R&D activity.
